PROJECTS

Contract in UNIT9.

2019.10 ~ 2020.12 10 Orange Street, Haymarket, London
https://unit9.com

UNIT9 is a production studio. We focus on VR, Digital, Gaming, Innovation and Film projects. We have offices in London, NY, LA, Berlin and Florence. UNIT9 is a global production partner. We create content with love. In this company, I worked as a freelancer with Damian(CEO), Tobiasz(CTO) to build excellent web-page for this company using React, STRAPI, CMS mainly last year

Used skills:

— React.js, CMS, STRAPI, Styled-Component
— Reactsrap, LESS.
— Contentful CMS.

Contract in NuccoBrain

2019.11– 2020.12 London, England, United Kingdom
 https://nuccobrain.com

 Nucco Brain is a buzzing visual storytelling studio based in London, US and Europe. They create stunning creative content that connects brands of all sizes with their audiences. Their strategic approach to storytelling helps brands communicate complex ideas simply, through digital content and compelling messaging.

Used skills:

— React.js, TypeScript, Strapi, CMS
— Sendgrid, Twilio, WebRTC, Opentok.
— Node, Express, Docker.

Contract in DeviceCommerce

2020.12– 2022.6 F-2020 Corydon AVE., Canada R3P 0N2, Canada
 https://devicecommerce.com/

 Device Commerce is an integrated business management platform for the wireless device industry. This software is built from the ground up, based on market needs, to help retailers scale their operations, increase profitability, and align their marketing efforts.

Used skills:

— React.js, TypeScript, Next.js
— HandleBar.js
— I18
— Framer-motion
— Material-ui
— LCP/CLS, CDN
— SCSS

REPRESENTATIVE PROJECTS

1. ADP Frontend in Device Commerce

2020.12 – 2022.6
https://devicecommerce.com/

https://mobiletechlab.ca/
https://bananaservice.ca/
https://geebodevicerepair.ca/
https://phonephix.ca/
https://blackapplecellular.com/
https://nanotechmobile.ca/
https://northtechcellsolutions.ca/
https://reparationcellulairebsl.ca/
https://wirelessrevottawa.ca/

https://sourapplerepair.com

https://devicelist.ca

https://dev.admin.dccmtx.com/

https://device-list.vercel.app/

These projects were built with React/Next, TypeScript using Material UI, SASS, Styled Component, deployed via CI/CD, Nginx.

As a repair-service platform for Mobile, Tablet, Computer, Cell Phone, and others, these projects are for commerce and trade.

2. DeviceCommerce in Device Commerce

2021.4 – 2021.5

https://devicecommerce.com/

High converting Google Ads-approved websites with end to end quote, appointment, inventory management software, and more. Gain control of your online presence, drive more traffic, and serve your customers better.

3. Family Story in KoT SAS

2018.4 – 2020.10

https://familystory.live/

https://eventstory.live/

Review from Frank Bracq (fbracq@eventstory.live): I've worked closely with Jin for almost 2 years and feel fully confident in expressing my endorsement. As a React front-end developer in our company, he completed his assignments quickly and perfectly and always provided insight for a better solution. I highly recommend him for any of your React projects.

4. Production Landing Page with React

2020.10 – 2020.11

https://prod-land.herokuapp.com/

Production Landing Page was built based on React, styled-component, framer-motion basically from 2020.10 ~ 2020.11 by me. This kind of website should be used for Blog page, production store website, or shoping page, etc.

5. Front-end for Desktop/Mobile test-app

2020.5 – 2020.8

https://makeup-layout.herokuapp.com/

https://eye-makeup-webgl-threejs.herokuapp.com/

https://detector-pose.herokuapp.com/

https://skin-color-detector.herokuapp.com/

This project is for Cosmetics, Ornament Layout project for shopping. Responsive app for desktop and mobile hosted in heroku. There are also another similar projects

created by me, you can use this app in your desktop and mobile.

6. Store-CRUD-React/Django

2020.4 – 2020.5

https://sportsstore-django-react.herokuapp.com/

This app is made of django-rest-framework and react. For authentication, it uses djangorestframework-simple-jwt. There are two types of users(staffs and ordinary users). They are all managed by admin. And admin/staff can manage users and admin can manage staffs. i.e Admin can create staff or user and staff can create only user.(CRUD)

7. Canvas-Mascular Animation

2020.1 – 2020.3 (Angelo Plessas, Greece)

https://canvas-animation-muscular.herokuapp.com/

It's HTML5/Canvas and Images based muscular animation project with Audio. I have built several animation projects with HTML5, Canvas, and CSS3. For more good understand, please click mouse in the page, then you should see that the muscular flows blood, and in that position, flower should be grown, ball should be rotated... There are so many animations respectively.

8. Quiz App (React/Graphql)

2020.1 – 2020.2

https://itinterviews.netlify.com/

Tech Quiz is a free app created for beginners to advanced IT students, developers, designers, and another computer scientist. You can create a free account and start learning. Tech Quiz is the entertainment trivia game where you get unlimited questions that can't be found anywhere else. For mobile app, please download here(https://play.google.com/store/apps/details?id=com.sureshkumarmukhiya.techquiz/)

9. ReactJS with SCSS

2019.3 – 2019.10

https://transl-eat.web.app/

React is a declarative, efficient, and flexible JavaScript library for building user interfaces. It lets me compose complex UIs from small and isolated pieces of code

called "components". I have studied ReactJS over 6 years to become an excellent front-end developer and with my skills, have developed this biggest project, transl-eat app as responsive with SCSS a year ago.

10.   Next.js-app

2021.4 – 2021.5

https://device-list.vercel.app/

As one of Next.s App, I've built this app, and deployed in Vercel from my repository myself.
